SHIPS CLASSIFICATION MALAYSIA

No. 3/2004

## SCM CIRCULAR

18 OCTOBER 2004

CIRCULAR TO SHIP OWNERS, MASTERS, AGENTS AND ALL RELEVANT PARTIES.

### **Radio Survey Companies Approved by Ships Classification Malaysia.**

We are pleased to inform owners of all ships classed with Ships Classification Malaysia that the Radio Survey companies mentioned below have been approved and appointed to independently carry out the radio surveys required by SOLAS. With the appointment of these survey companies, surveyors from SCM will no longer be required to attend to the annual radio surveys, however if surveys are carried out by companies other than those listed below, the surveyor from SCM will still be required to attend to the vessel.

Owners are required to request for surveys directly to the survey company of their choice. You are advised to liaise with the survey company to ensure that the survey report is expediently forwarded to SCM head office to facilitate the issuance of safety radio certificates.

The companies that have been appointed are:
